KAWEAH DELTA WATER CONSERVATION DISTRICT

Attachment 3 – Status of GWMP

The Kaweah Delta Water Conservation District adopted its Groundwater Management Plan (GWMP) on November 7, 2006, pursuant to Water Code §10753(b) (See enclosed copy of executed resolution). The District's GWMP, which is an AB3030, SB 1938 compliant plan, has numerous participants (see enclosed excerpt from GWMP). Participation is through a series of executed MOUs. In addition, a number of cooperative agreements exist for management of water resources for the benefit of the health of the groundwater reservoir. These agreements are designed to accomplish, or at least augment, specific elements of the GWMP. Some of the objectives of these agreements, such as that between the District and the City of Visalia, are managed by a joint committee, comprised of elected representatives. Others, such as that between the District and the Ivanhoe Irrigation District, have management objective instructions which tier off of the original agreement objectives and are designed to enhance the original objectives. Recently a GWMP participant, the City of Lindsay, completed a project, with the Department of Water Resources assistance, to develop and calibrate an expansion of the District's numeric groundwater model from its current easterly boundary, east to the edge of the Sierra Nevada foothills. Numerous examples exist of MOU participant activities which enhance the implementation of the GWMP and go well beyond just attendance at annual meetings and participation in 5-year GWMP update efforts.

COPY

**RESOLUTION  
OF THE  
BOARD OF DIRECTORS  
OF THE  
KAWEAH DELTA WATER CONSERVATION DISTRICT**

WHEREAS, notice was duly given, pursuant to California Government Code section 6066, that Kaweah Delta Water Conservation District (hereinafter "District") would hold a public hearing on whether or not to adopt an amended groundwater management plan;

WHEREAS, on November 7, 2006, a public hearing was held during the regular meeting of the Board of Directors of the District, during which members of the public were allowed to comment on whether the District should adopt an amended groundwater management plan; and

WHEREAS, after the aforementioned public hearing, the Board of Directors of the District discussed whether it would be in the best interests of the District to proceed to adopt such an amended groundwater management plan,

NOW, THEREFORE, upon motion made by Director Gomes, seconded by Director Ritchie, and unanimously carried, the Board of Directors resolved to adopt the amended groundwater management plan, as proposed, as the District's groundwater management plan.

## CERTIFICATE OF RESOLUTION

I, Bruce George, hereby certify as follows:

1. That I am the Secretary of the Kaweah Delta Water Conservation District; and
2. That the foregoing resolution, consisting of 2 pages is a true and correct copy of a resolution of the Board of Directors of the District passed at the meeting of the Board of Directors regularly held on November 7, 2006, at the District's principal executive office, located at 2975 N. Farmersville Boulevard, Farmersville, California 93223.

IN WITNESS WHEREOF, I have signed this certificate this 15<sup>TH</sup> day of November, 2007, at the District's principal executive office.

  
Bruce George, Secretary

The District’s Plan Area contains multiple local agencies that provide various types of water services. Those local agencies that have been included as stakeholders through the execution of a *Memorandum of Understanding (MOU)* are shown on Plate 3. The list of current stakeholders covered under a MOU is provided below in Table 1.

**TABLE 1  
PLAN STAKEHOLDERS**

California Water Service Company	Kings County Water District <i>(AB 3030 Plan)</i>
City of Farmersville	Lakeside Ditch Company
City of Lindsay	Lakeside Irrigation Water District
City of Tulare	St. Johns Water District
City of Visalia	Stone Corral Irrigation District
City of Woodlake	Tulare Irrigation District <i>(AB 255 Plan)</i>
Consolidated Peoples Ditch Company	Ivanhoe Irrigation District

### ***1.6 Management Plan Components***

The District’s Plan includes the following required and recommended components:

- ✓ CWC § 10753.7 (four mandatory components). Recent amendments to the CWC at § 10750 et seq. require a Groundwater Management Plans (GMP) to include several components to be eligible for award of funding administered by the Department of Water Resources (DWR) for the implementation of groundwater related studies, construction of groundwater projects and groundwater quality projects. These amendments to the CWC were included in Senate Bill 1938, effective January 1, 2003.
- ✓ CWC § 10753.8 (12 optional components). CWC § 10753.8 includes 12 specific technical issues that could be addressed in GMPs to manage the basin optimally and protect against adverse conditions.
- ✓ DWR Bulletin 118-2003, Appendix C (six recommended components). The recent 2003 update to the Department of Water Resource’s Bulletin 118, *California’s Groundwater*, includes discussion of required and recommended components of Local Groundwater Management Plans. Review of the material results in identifying components that are not included in CWC § 10750 et seq.

Table 2 summarizes the required and recommended components of an AB 3030 plan developed pursuant to current State guidance and the appropriate section of the District’s Plan where each component is addressed.
