GAP MONITOR WELL INSTALLATION PROGRAM – 2013  
KAWEAH DELTA WATER CONSERVATION DISTRICT

Attachment 8 – Quality Assurance

All work Proposed for the Expansion to Kaweah Delta Water Conservation District's Monitor Well Network Project (Project) to be completed under this Program will be performed under the direction of the listed Project Manager, Mr. Larry Dotson. Mr. Dotson is a Registered Civil Engineer in the State of California (License No. 42,036). In addition to Mr. Dotson, The Kaweah Delta Water Conservation District's Consultant Engineer, Mr. Dennis Keller will serve as the peer reviewer on all reporting, data generation and will oversee the design and development of the Project Plans and Specifications. Mr. Keller is a Registered Civil Engineer (License No. 24,199) and Registered Agricultural Engineer (License No. 282) in the State of California.

The Project will require that all soil testing be completed as specified by the Unified Soil Classification System. Health and safety standards will be performed under the guidelines set forth by the California Department of Industrial Relations, Division of Occupational Safety and Health. All materials installed as part of the Project must conform to the American Society for Testing and Materials.

All required environmental documentation will be completed using the guidelines set forth by the California Environmental Quality Act.
