

ATTACHMENT 10: AB1420 AND WATER METER IMPLEMENTATION COMPLIANCE

Applicants, who are urban water suppliers, must provide documentation that they are in compliance with the AB1420 (CWC §10631.5) and Water Meter Implementation (CWC §525 et seq.) requirements. Both the AB 1420 and the Water Meter Compliance Self Certification forms must be signed, uploaded to BMS, and wet signatures submitted in hardcopy. Only a single hard copy submittal is required for this attachment.

Applicants can submit hard copies of these forms prior to the application due date as a standalone attachment. An urban water supplier who has already submitted AB1420 Tables 1 and 2 will only need to re-submit updated tables if:

- *There have been any changes in the implementation schedule, financing, budget, and level of coverage since the prior submittal of those tables, or;*
- *The previous submittal was over one year ago.*

If the tables do not need to be resubmitted, include a statement in Attachment 10 that the tables have already been submitted to DWR; provide the submission date, and that there are no changes, updates, or time lapse.

For further information about AB 1420 compliance and Water Meter Implementation compliance please contact DWR as indicated in the Forward to the Guidelines and PSP.

The Kings River Conservation District will be the contracting agency with the State. The District is not an Urban Water Supplier as defined by the California Water Code, as the District is not responsible for water delivery or direct sale of water for delivery.
