

ATTACHMENT 2 - ELIGIBLE APPLICANT DOCUMENTATION

Mission Springs Water District (District) was formed in 1953 as a County Water District under California Water Code Section 30000, with authority for water and wastewater within the District service boundaries. The District is a special district, and as such designated and qualifies as a local public agency under California Water Code Section 10701(a).

The District is overseen by a publicly elected five member board of directors. The District has authority to enter into grant agreements with the State of California, and by virtue of Board action on June 18, 2012, District Resolution 20012-12 (enclosed herewith the grant application), delegated authority to District staff to make application with the Department of Water Resources (DWR) for a local Groundwater Assistance Grant, and proceed to contract if successful with the grant application.

There are no partner agencies and related legal agreements. The District will have sole responsibility for the grant, including all administration, cost tracking and performance to complete the Work Plan as detailed under the grant application, and any subsequent contract with DWR.
