

Attachment 7 Schedule

7.1 *Proposed Performance Period: April 2013 – April 2015*

The schedule appearing on the following page is preliminary, and is dependent upon funding approval for the study and timing of entering a grant agreement with DWR. The Water Agency has reviewed DWR's Grant Template Agreement and is ready to proceed immediately with developing an agreement with DWR upon award notification. On June 19, 2012, the Water Agency's Board of Directors adopted a Resolution (included as Attachment 1), authorizing the Water Agency to execute a grant agreement with DWR and complete the proposed scope of work.

The below schedule was derived based on the Water Agency's experience in completing similar tasks (e.g., the scope of work for the 2008 LGA grant awarded by DWR) and time estimates provided by subconsultants.

Preliminary Schedule – Sonoma Valley Enhanced Groundwater Recharge Study

Activity	2013										2014										2015				
	A	M	J	J	A	S	O	N	D		J	F	M	A	M	J	J	A	S	O	N	D	J	F	M
Task 1: Pre-field Activities																									
1.1 Finalize well locations																									
1.2 CEQA & Enviro. Activities																									
1.3 Obtaining Permits																									
1.4 Contracting																									
Task 2: Drilling & Well Construction																									
2.1 Nested Monitoring Wells																									
2.2 Shallow Monitoring Wells																									
2.3 Well Development & Survey																									
2.4 Groundwater Monitoring																									
Task 3: Aquifer Test (72-hr pump test)																									
Task 4: Geochemical Modeling																									
Task 5: Reporting																									
5.1 Well Completion Report																									
5.2 Aquifer Testing Report																									
5.3 Geochem Modeling Report																									
5.4 Quarterly Status Reports
