**DWR Releases Second Quarter Spot Market Purchases Data**

Sacramento - The California Department of Water Resources (DWR) today released invoice and confirmation sheets for this year's second quarter spot market electricity transactions, and short-term power purchases of 90 days or less.

The release covers April, May and June purchases. The timing of the release of spot market information follows a quarter lag period established to protect DWR's ability to negotiate further power purchases on the spot market. In accordance with that schedule, third quarter information is scheduled to be released following the conclusion of the fourth quarter (i.e.: early January 2002).

In addition, the Department will release its Activities and Expenditures Report later this week as required by the by Assembly Bill X1 1. The report, which is being finalized and expected to be completed by Thursday, will be delivered to the Legislature and made available on the Department's web site.

Copies of the second quarter documents, which total 2,150 pages, are now available at the Department of Water Resources, 1416 9th Street, Room #338, Sacramento, Ca 95814. Cost for a copy is \$215.00 (plus shipping) payable by check or money order to the Department of Water Resources. For shipping or ordering information, contact DWR publications unit at (916) 653-1097.
