Rulemaking for the Selection of private architects,
landscape architectural services, engineers, environmental services,
land surveyors and construction project management firms

The Department of Water Resources (DWR or Department) proposes to adopt as permanent regulations new and amended regulations that establish the procedures for selection of private architects, landscape architectural services, engineers, environmental services, land surveyors and construction project management firms. DWR will consider all comments, objections, and recommendations specifically directed at the proposed action or the procedures followed before DWR adopts the proposed rulemaking action.

This site contains the following items related to the proposed rulemaking:

- The [Notice of Proposed Rulemaking](#) (44K .doc) including an informative digest of the proposal in plain English, estimates of fiscal impact of the proposal, discussion of alternates, information about how to contact the Department, and related items
- The [Initial Statement of Reasons](#) (31K .doc) that relates the purpose of each provision, the reason it is needed, the additional materials that the Department relied on in developing the proposal, and related information
- The [Text of the Proposed Regulations](#) (38K .doc) as originally noticed to the public
- [A Form 399](#): Economic and Fiscal Impact Statement (248K .pdf)
- [A Form 400](#): Notice Publication (82K .pdf)

The Office of Administrative Law has made no decisions yet regarding the proposed rulemaking.

The proposed rulemaking has not yet been filed with the Secretary of State.

The rulemaking is still a proposal; therefore there is no effective date of adoption yet.

The Department of Water Resources operates and maintains the State Water Project, provides dam safety and flood control and inspection services, assists local water districts in water management and water conservation planning, and plans for future statewide water needs.
