RELEASE DATE: March 16, 2017

## FOR PLANNING PURPOSES ONLY

### OROVILLE SPILLWAY PRESS BRIEFING TOMORROW

**Oroville, Calif.** – The Department of Water Resources (DWR) will host a press briefing tomorrow, Friday, March 17 at 9 AM to provide an update on various topics including repairs to the flood control spillway and preparations to release water through that spillway.

The briefing will be held at DWR's Oroville Field Division office, **460 Glen Drive Oroville, CA 95966**.

The briefing will be streamed live on [DWR's Facebook](#) page.

For information on lake conditions – including lake levels, inflows, and outflows – visit the [Oroville Reservoir page](#) on the California Data ExchangeCenter or the California Department of Water Resources [news page](#) or the [Oroville Spillway Incident page](#).

**Please Note:** For your safety and the safety of crews working in the construction zone, members of the news media must wear Personal Protection Equipment (PPEs) – hard hat, reflective vest, and sturdy shoes/boots – if visiting the construction site. Those not following this guideline will be asked to leave the area.
