Oroville Spillway Incident Update

Date: 03/19/17 Time: 1000
Information Line: (530) 534-2307
Media Line: (530) 268-5869

STATUS

Incident Start Date: 02/07/2017		Incident Start Time: 1400
Incident Type: Weather System		Description: Damage to the Oroville Spillway
Incident Location: Oroville Dam, Canyon Dr. & Oroville Dam Rd., Oroville, CA 95966		
Structures Threatened: None	Structures Destroyed: None	Structures Damaged: None

RESOURCES

Cooperating Agencies: Butte County Sheriff, Butte County CALFIRE, Oroville Police Department, CHP, Butte County OES, California State Parks, Caltrans, Oroville Fire Department, Butte County Public Works, PG&E, CAL FIRE, Army Corps of Engineers, Federal Energy Regulatory Commission, Oroville Hospital, Red Cross, California Conservation Corps, California National Guard, Bureau of Indian Affairs, CAL OES, Gridley-Biggs Police, and California Department of Fish and Wildlife.

SITUATION

Current Situation:

The flood control spillway flows are currently at 40,000 cubic feet per second (cfs). Inflows are approximately 16,000 to 23,000 cfs. Current lake elevation is at 856.3 feet. Hyatt Powerplant is currently discharging 6,750 cfs.

Approximately 1.25 million cubic yards of material have been removed from the debris pile to date.

The low flow section of the Feather River (the river channel through Oroville) is currently at 41,000 cfs. Total flows to the Feather River are approximately 48,000 cfs.

DWR advises the public to avoid the river for the next week.

Outflows and river levels are expected to remain steady for approximately one week before being reduced again.

For information on lake conditions – including lake levels, inflows, and outflows – visit the [Oroville Reservoir page](#) on the California Data Exchange Center.

For more information on lake conditions – including lake levels, inflows, and outflows – visit the [Oroville Reservoir page](#) at the California Data Exchange Center.

Oroville Spillway Incident Update

Evacuation Centers:	All evacuation centers supported by Butte County are now closed.
Road Closures:	<p>Oro-Dam East from Glen Drive to Canyon Drive. Oroville Dam Crest Road closed at the left abutment restrooms. Canyon Drive from Royals Oaks to Royal Oaks (at Upper Overlook).</p> <p>DWR has partnered with the California Department of Transportation (Caltrans) to address roads in Oroville and surrounding areas impacted by the trucks and heavy machinery driving through Oroville in response to the Spillway Emergency.</p> <p>Canyon Drive from Oroville Dam Blvd East to Royal Oaks Drive is restricted to local residents only. The road will be restricted to north-bound traffic only.</p> <p>For more information, please visit: DWR NEWS RELEASE</p>
Trail Closures:	<p>The Oroville Wildlife Area is still on high alert due to the dynamic conditions of current weather fronts moving in, road closures due to flooding, and ongoing spillway repairs. In order to maintain the safety of staff and the public, the wildlife area will remain closed (except for the Chico field office and Thermalito Afterbay).</p> <p>Lake Oroville SRA has partially opened areas surrounding Lake Oroville SRA, excluding units normally closed due to current water levels and the area in front of the dam. The Thermalito Diversion Pool (Burma Day Use and Lakeland Day Use) and the Spillway Launch Ramp will remain closed. This includes those portions of the Brad Freeman and Dan Beebe trails leading from the SRA's Visitor Center to the City of Oroville. California State Parks Rangers are providing roving patrols due to a large number of contacts in the closed area.</p>
To News Media:	For your safety and the safety of crews working in the construction zone, members of the news media are advised to wear Personal Protection Equipment (PPEs) - hard hat, reflective vest, safety glasses, and sturdy shoes/boots. Those not following this guideline will be asked to leave the area.
