

**Gated Spillway: Potential Remedial Measures for Upper Chute Area**

Replace as much of the Upper Chute as possible by November 1, 2017 with modern, robust design. Anchor any remaining slabs and walls until replacement during next construction season.

### Gated Spillway Remediation Concepts: Lower Chute Area

The following graphic provides a plan view of both the upper and lower chute portions of the gated flood control spillway.

#### Note

Lower Chute has two concepts: temporary stabilization by November 1, 2017 or permanent reconstruction by November 1, 2017.

### Emergency Spillway Remediation Concepts

The following graphic provides a profile view of an emergency spillway recovery concept including the RCC buttress and splash pad and the downstream cutoff wall.
