

**LEGEND**

- 1991 IFIM Surveys
- 1997 2-foot contour mapping
- August 2002 Survey
- 1991 Water Surface
- 2002 Water Surface

**CONTROL POINT DATA**

I-6 (concrete and pipe)	I-5 (concrete and pipe)
Northing: 2313828.538	Northing: 2314326.865
Easting: 6685829.045	Easting: 6685752.500
Elevation: 148.69	Elevation: 168.40'

**TRANSECT DATA**

Length (2002): 806.84'	Azimuth: 8°43'55"
Length (1991): 504.22'	Azimuth: 8°43'55"

**GAGE DATA (from USGS)**

Oroville Gage:	
7/13/92: 1010cfs	
8/15/02: 837cfs	
Gridley Gage:	
7/13/92: 2090cfs	
8/15/02: Not Available	

**Notes:**

- 1) Land surveys, depth soundings, and velocities for the 1992 IFIM surveys were conducted on July 13, 1992.
- 2) Assumed elevations for the control points were converted to actual elevations by a level survey performed by DWR-Land and Right-of-Way in June 1996.
- 3) The 1997 cross-section was generated from 2-foot contour topographic mapping from the U.S. Army Corps of Engineers (COE) Comprehensive Study. The actual cross-section was generated using Land Developer and AutoCad software.
- 4) The 2002 cross-section was surveyed in June 2002. Coordinates for the IFIM control points were generated using a RTK GPS survey with a Trimble backpack 4700 receiver. Distances and elevations were measured along section with conventional total station surveying equipment.
- 5) Elevations are referenced to the National Geodetic Vertical Datum of 1929 (NGVD29).
