

# MEETING THE CHALLENGE Central Valley Flood Protection Plan

**Legislative Direction**

- Describe the State Plan of Flood Control in the Central Valley (PRC§5096)
- Prepare a Flood Control System Status Report (WC§9120)
- Prepare the 2012 CVFPP and update every 5 years thereafter (WC§9612)

**Meeting Legislated Flood Protection Goals**

“Meeting the goals of integrated flood management in the Central Valley will require systemwide planning and close collaboration between different levels of government, the public, business, and other interests. We at DWR are committed to provide leadership and a forum for that collaboration and big picture thinking.”

Lester Snow, Director  
California Department of Water Resources

**The 2012 Central Valley Flood Protection Plan (CVFPP) will:**

- Document and promote understanding of integrated flood management factors including existing conditions and likely future challenges, problems and opportunities, goals and objectives, and potential solutions for improving integrated flood management in the Sacramento-San Joaquin Valley. **These factors will be described from multiple perspectives** including state, tribal, federal, regional, local, and other interest-based groups.
- Develop a broadly supported vision for how to improve integrated flood management in the Sacramento-San Joaquin Valley.

**CVFPP Planning Area**

**Planning and Engagement Process for Developing the CVFPP**
