Vivien L. Maisonneuve
Staff Environmental Scientist
Department of Water Resources
Salton Sea Program
PO Box 942836
Sacramento, CA 95814

Dear Vivien,

Please note that the BMS system print-out changed all the original formatting of our proposal. It also does not recognize scientific units, which it replaced by question marks. Please kindly review the PDF version that we are sending you, which complies with the character number requirements for each section and for each question. Both PDF versions are included in the CD that we are submitting with this note.

Sincerely,

A handwritten signature in black ink that reads 'Norman Terry'.

Norman Terry, Ph.D.
Professor of Plant Biology
