

California's Flood Future Webinar

May 13, 2013

On April 3, DWR and the U.S. Army Corps of Engineers released the public review draft of California's Flood Future: Recommendations for Managing the State's Flood Risk. The report is intended to help inform decisions about policies and financial investments to improve public safety, foster environmental stewardship and support economic stability.

Learn more about the report findings at a webinar hosted by DWR and USACE. Information is below.

California's Flood Future Webinar
