

## **North-of-the-Delta Offstream Storage Planning Objectives**

### **Primary Objectives**

- Increase water supplies to meet existing contract requirements, including improved water supply reliability, and provide greater flexibility in water management for agricultural, environmental, and municipal and industrial (M&I) users
- Increase the survival of anadromous fish populations in the Sacramento River as well as the health and survivability of other aquatic species
- Improve Delta Water Quality

### **Secondary Objectives**

- Provide ancillary hydropower benefits to the statewide power grid
- Develop additional recreational opportunities
- Create incremental flood-damage reduction opportunities to support the northern California flood management system
