FISH UPDATES:

- **DOSS** – Discussed the complications of potential louver lifts associated with high debris loads. For fish protection, it would be more beneficial to reduce exports first to try and control debris loads, and to lift the louvers associated with bypasses #1-3. For debris management, it would be more effective to lift the louvers associated with bypasses #1-3 w/o reducing exports. No advice.
- **SWG** - Met yesterday, no advice; 17 delta smelt caught on trawl at Jersey Point Monday – SWG call at 4:00 p.m. today.
- **NMFS** – No determination
- **USFWS** – No determination
- **DFW** – No determination,

SWRCB Activities:

- **Delta Water Master** – SWRCB announced selection of Michael George as new Delta Water Master

2. WOMT Decisions – None.
