

X. OBJECTIVE 3D: BILLING AUTHORIZATION

Costs incurred or disbursements made for the development, operation and maintenance of public recreation and the enhancement of fish and wildlife shall not be included in the prices, rates, and charges for water and power, and shall be costs and disbursements that are not billable to or reimbursable by the contractors. The above prohibition shall also apply to that portion of costs incurred or disbursements made for the development, operation and maintenance of public recreation or for fish and wildlife enhancement at joint use or multi-purpose facilities.

Such recreational purposes include, but are not limited to, those recreational pursuits generally associated with the out-of-doors, such as camping, picnicking, fishing, hunting, water contact sports, boating, and sightseeing, and the associated facilities of campgrounds, picnic areas, water and sanitary facilities, parking areas, viewpoints, boat launching ramps, and any others necessary to make project land and water areas available for use by the public.
