## Water Storage Investment Program Tribal Webinar Meeting

The California Water Commission is hosting a Webinar Meeting on its Water Storage Investment Program (WSIP) for California Tribal governments.

**October 20, 2016**

**10:00 a.m. - 12:00 p.m.**

**Via WebEx Webinar (login information will be provided upon RSVP)**

In November 2014, California voters overwhelmingly approved Proposition 1, which dedicated \$2.7 billion for investments in the public benefits of water storage projects. The Commission is responsible for appropriately allocating these funds and will select water storage projects for funding based on their public benefits through a competitive public process.

This Webinar will provide a venue for Tribes to receive an update on the status of the WSIP program and regulations and to provide Commissioners and Commission staff with feedback on the regulation language. As part of the Administrative Procedure Act, the Commission recently opened a new public comment period for the updated draft regulations and additional documents related to the Water Storage Investment Program.

Public comments regarding the updated draft regulations will be accepted until 5:00 p.m. on October 3, 2016.

The text of the revised draft regulation, related documents, and information about the public comment period can be found on the Commission's website at:
