Attn: Mr. Kelly, Deputy Director

Dear Mr. Kelly,

Please find attached a draft copy of California Water Service Company's 2005 Urban Water Management Plan for the Palos Verdes District. A portion of Los Angeles County is within the California Water Service Company's service area. This plan, as required by the California Water Code §10644(a), is made available to cities and counties within the district service area for review and comment. The final form of the plan is required by the California Department of Water Resources on or before December 31, 2005. The review and comment period of this plan will end at close of business on November 30, 2005.

This Urban Water Management Plan is a foundation document and source of information for a Water Supply Assessment and a Written Verification of Water Supply. The Urban Water Management Plan also serves as a long-range planning document for water supply and can be a source document for cities and counties for the preparation of the General Plans. Review of this plan will benefit both of our organizations.

Please review the report and send any comments or questions you might have to the preparer of the Urban Water Management Plan:
