

## Chino Basin Desalter Authority

November 2, 2005

Mr. Dave Crosley  
City of Chino  
P.O. Box 667  
Chino, CA 91708-0667

**RE: NOTIFICATION OF THE PREPARATION OF AN URBAN WATER  
MANAGEMENT PLAN BY THE CHINO DESALTER AUTHORITY**

The Chino Desalter Authority (CDA) was formed as a Joint Powers Authority in February 2002 to manage the production, treatment, and distribution of highly treated potable water to cities and water agencies throughout its service area. As such, the CDA is recognized as an urban water supplier and so falls under the Urban Water Management Planning Act (Act) of the California Water Code.

The Act requires that CDA notify cities and counties in its service area that they are preparing an UWMP. Please let this letter serve as your formal notification. The Act requires urban water suppliers to submit a complete plan to the California Department of Water Resources every five years, but this will be the first UWMP prepared by the CDA.

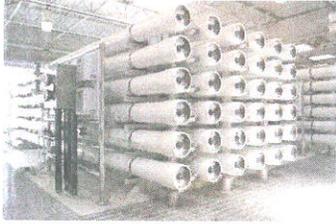

A draft of CDA's UWMP is available for review online at [ieua.org](http://ieua.org) and [jcsd.us](http://jcsd.us) for a 30-day public review period and by the CDA Board of Directors in November. Please contact us if you would like to have a draft sent to you.

If you would like more information or have any questions, please contact Gary Hackney of the Inland Empire Utilities Agency at (909) 993-1720 or via email at [ghackney@ieua.org](mailto:ghackney@ieua.org).

Sincerely,

Charlie Smith  
Interim CDA Coordinator

**RE: NOTIFICATION OF THE PREPARATION OF AN URBAN WATER  
MANAGEMENT PLAN BY THE CHINO DESALTER AUTHORITY**

The Chino Desalter Authority (CDA) was formed as a Joint Powers Authority in February 2002 to manage the production, treatment, and distribution of highly treated potable water to cities and water agencies throughout its service area. As such, the CDA is recognized as an urban water supplier and so falls under the Urban Water Management Planning Act (Act) of the California Water Code.

The Act requires that CDA notify cities and counties in its service area that they are preparing an UWMP. Please let this letter serve as your formal notification. The Act requires urban water suppliers to submit a complete plan to the California Department of Water Resources every five years, but this will be the first UWMP prepared by the CDA.

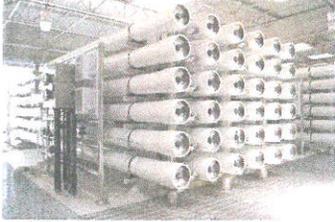

A draft of CDA's UWMP is available for review online at [ieua.org](http://ieua.org) and [jcsd.us](http://jcsd.us) for a 30-day public review period and by the CDA Board of Directors in November. Please contact us if you would like to have a draft sent to you.

If you would like more information or have any questions, please contact Gary Hackney of the Inland Empire Utilities Agency at (909) 993-1720 or via email at [ghackney@ieua.org](mailto:ghackney@ieua.org).

Sincerely,

Charlie Smith  
Interim CDA Coordinator
