

### 3.6 Demand Management Measures (DMMs) (§ 10631(f-j))

COP is a member of the California Urban Water Conservation Council (CUWCC), and submits annual reports to the council annually in accordance with the "*Memorandum of Understanding Regarding Urban Water Conservation in California*," dated September 1991. According to the DWR Guidebook for Preparing a 2005 UWMP:

*The Urban Water Management Planning Act provides two distinct methods for providing information related to Demand Management Measures (DMMs) and meeting the requirements of Water Code Section 10631 (f) and (g).*

1. *A water supplier who is a member of the California Urban Water Conservation Council (Council) may submit their BMP Activity Reports (Annual Reports). Council members agree to make a good faith effort to implement the 14 urban water conservation Best Management Practices (BMPs) that are intended to reduce long-term urban demands. Members are required to submit annual reports every two years identifying their implementation activities on each of the 14 BMPs. These BMPs are functionally equivalent to the Demand Management Measures in Water Code Section 10631. Council members would utilize the following components from the BMP Reporting Database to satisfy the DMM requirements:*
  - *The most recent BMP Activity Reports submitted to the Council for reporting years [2005-06].*
  - *It is recommended that you also include the Annual Reports for [2003-2004] and the Coverage Reports identifying the water supplier's progress on meeting the coverage requirements for quantifiable BMPs*
  - *It is also recommended that agencies submit the Council Coverage Calculator and any BMP cost-effectiveness forms submitted to the Council in support of exemption submittals.*

*To use this method of providing demand management measure implementation information, the supplier must have submitted their BMP Activity Reports on implementation of the Council's 14 BMPs using the Council's BMP Reporting Database.*

The most recent BMP Activity Reports for reporting years 2005 and 2006 were submitted to the CUWCC in prior to December, 2006. Copies of said reports for all years submitted by the COP can be viewed on <http://bmp.cuwcc.org/bmp/default.htm>, under "View Submitted Report Data, BMP Reports by Water Supplier", under COP Reporting Units.
