May 14, 2014

Mr. Jeff Kolin
City Manager
City of Beverly Hills
455 North Rexford Drive
Beverly Hills, California 9010

Dear Mr. Kolin:

The Department of Water Resources (DWR) has reviewed the City of Beverly Hills' (City) 2010 Urban Water Management Plan (UWMP) received August 18, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the City's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC. In updating the City's UWMP in 2015, DWR recommends the City describe the methodology for calculating the City's service area population, especially for West Hollywood. (Please see Water Code 10608.20 (f).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. Jeff Kolin
