July 28, 2014

Mr. Andrew Takata
General Manager
City of Calexico
608 Heber Avenue
Calexico, California 92231

Dear Mr. Takata:

The Department of Water Resources (DWR) has reviewed the City of Calexico's (City) 2010 Urban Water Management Plan (UWMP) received September 12, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the City's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC.

DWR recommends that when updating this plan in 2015, the City make the following revisions:

For Demand Management Measures (DMMs) B (residential plumbing retrofits) and N (residential toilet replacement), provide an adequate description, a cost/benefit analysis, or a plan of implementation. The UWMP provided a description of the code and ordinance implemented by the City but did not describe an active conservation program.

By including this data in future UWMPs, the City will better meet the requirements of the Water Code.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. Andrew Takata
