June 6, 2014

Mr. Brian Brady
General Manager
Fallbrook Public Utility District
Post Office Box 2290
Fallbrook, California 92088-2290

Dear Mr. Brady:

The Department of Water Resources (DWR) has reviewed the Fallbrook Public Utility District's (District) 2010 Urban Water Management Plan (UWMP). The California Water Code directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans to ensure that they have addressed the required elements of the California Water Code.

DWR's review of the District's 2010 plan has determined the following required elements have not been addressed in accordance with the Water Code:

CUWCC Best Management Practices are not on track (see Water Code 10631 (j)). Urban water suppliers that are members of the California Urban Water Conservation Council are deemed in compliance with the requirements by complying with all of the provisions of the "Memorandum of Understanding Regarding Urban Water Conservation in California" dated December 10, 2008, and by submitting the annual reports required by Section 6.2 of that memorandum.

To meet the requirements of the Water Code and to be eligible for State water grants and loans, the District should consider revising its 2010 UWMP to address the UWMP elements noted above. Revised plans must be adopted by the District's governing board following the public process specified in the UWMP Act. DWR encourages water suppliers to send drafts of the revised sections to DWR for review before adopting the revised plan.

After adoption, copies of the revised plan should be sent to DWR, the State Library, and local cities and counties. On receiving the revised plan, DWR will review the revised sections for compliance with the UWMP Act.

Mr. Brian Brady
