June 12, 2014

Mr. Robert Perrault
City Manager
City of Grover Beach
154 South Eighth Street
Grover Beach, California 93433

Dear Mr. Perrault:

The Department of Water Resources (DWR) has reviewed the City of Grover Beach's (City) 2010 Urban Water Management Plan (UWMP) received on July 12, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans to ensure that they have addressed the required elements of the California Water Code.

DWR's review of the City's 2010 Plan has determined the following required elements have not been addressed in accordance with the Water Code:

- 1) Baseline population, baseline water use, and the selected target method were not provided (CWC 10608.20 (E)).
- 2) Demand Management Measurements A (residential surveys), M (water waste prohibition), and I (CII) were not implemented. DMMs not implemented required a cost/benefit analysis, or plan of implementation (CWC 10631 (f) and (g)).

To meet the requirements of the Water Code and to be eligible for State water grants and loans, the City should consider revising its 2010 UWMP to address the UWMP elements listed above. Revised plans must be adopted by the City's governing board following the public process specified in the UWMP Act. DWR encourages water suppliers to send drafts of the revised sections to DWR for review before adopting the revised plan.

Mr. Robert Perrault

After adoption, copies of the revised plan should be sent to DWR, the State Library, and local cities and counties. On receiving the revised plan, DWR will review the revised sections for compliance with the UWMP Act.

Please feel free to contact me if you would like to discuss this further.

Sincerely,

A handwritten signature in black ink, appearing to be 'P. Brostrom', written in a cursive style.
