Date: April 20, 2011

To: City of Hollister, City Clerk
County of San Benito, Clerk of the Board

From: Shawn Novack, Water Conservation Program Manager
San Benito County Water District

Re: 2010 Urban Water Management Plan Update

The Urban Water Management Planning Act requires every urban water supplier to prepare and adopt an Urban Water Management Plan (UWMP) and to update the plan at least once every five years. The Hollister Urban Area UWMP, a collaborative endeavor of the City of Hollister, Sunnyslope County Water District, and San Benito County Water District, is now being reviewed and changes are being considered.

In accordance with Water Code Section 10621, this notice is provided to the City and County at least 60 days prior to the public hearings on the plan, which are being scheduled for late June. Consistent with the Water Code, the plan will be adopted by the Hollister Urban Area agencies by July 1, 2011.

If you have any questions or comments regarding the UWMP update, please contact:

RESOLUTION NO. 2011-81

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOLLISTER
APPROVING, WITH QUALIFICATIONS, THE HOLLISTER
AREA URBAN WATER MANAGEMENT PLAN 2010**

WHEREAS, the City of Hollister has joined in a cooperative effort with the Sunnyslope County Water District and the San Benito County Water District in the preparation of an Urban Water Management Plan ("the Plan") pursuant to Water Code Section 10620 et. seq., known as the Urban Water Management Planning Act; and

WHEREAS, the study area for the Plan is the "Hollister Area" comprised of the Hollister East, Hollister West and Tres Pinos groundwater sub-basins; and

WHEREAS, one of the purposes of the Plan is to identify and quantify existing and planned sources of available water and the reliability of the water supplies without creating any rights or entitlement to water service or a specific level of water service; and

WHEREAS, neither the Plan nor the statute mandating the adoption of the Plan encourages exclusive use of the Plan by land use entitlement agencies in making water-related land use decisions; and

WHEREAS, because water is a changing resource, the Plan must be viewed as a snapshot of water availability and reliability based upon facts available at the time of creating the Plan; that water dynamics change because of forces of nature or human conduct and that, for the above reasons, the exclusive use of the Plan as a resource tool for making land use decisions is discouraged; that land use entitlement requests must be reviewed on a project by project basis for the purpose of analyzing the availability and reliability of water resources for the project; and

WHEREAS, the City acknowledges its responsibility to take all necessary steps to address water supply emergency issues; and

WHEREAS, the City is committed to water conservation and obligated to specific water conservation measures by virtue of state mandated legislation.

NOW, THEREFORE, the City Council hereby resolves as follows:

1. 5. The City Manager is hereby directed to implement the Water Conservation programs as funded through the City's Annual Budgets including procedures to carry out effective water conservation and recycling programs in order to meet statutory and contractual obligations.
