March 21, 2014

Mr. James D. Sadro  
Interim City Manager  
City of La Habra  
201 E. La Habra Boulevard  
La Habra, California 90633-0337

Dear Mr. Sadro:

The Department of Water Resources (DWR) has reviewed the City of La Habra's (City) 2010 Urban Water Management Plan (UWMP) received June 10, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plan.

DWR' review of the City of La Habra's 2010 UWMP has found that the Plan generally addresses the overall requirements of the CWC. DWR recommends that when updating this Plan in 2015, the City:

Address each Demand Management Measure (DMM) listed in the Water Code by providing a description of the program currently being implemented, or, for any DMM not being implemented, provide either a cost/benefit analysis, or a plan of implementation. The narrative provided for DMM 1, Survey Program for Residential Customers, states that the survey program ceased in 2002 and does not adequately address this DMM.

By including this data in future plans, the City will better meet the requirements of the Water Code Section 10634 (f).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. James D. Sadro
