April 21, 2014

Mr. Bob Russi
City Manager
City of La Verne
3660 D Street
La Verne, California 91750

Dear Mr. Russi:

The Department of Water Resources (DWR) has reviewed the City of La Verne's (City) 2010 Urban Water Management Plan (UWMP) received July 21, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the City's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC. DWR recommends that in the 2015 UWMP update, to be sure to address Demand Management Measure #14, Water Waste Prohibition, and to include a Preparation for Catastrophic Water Supply Interruption in the Water Shortage Contingency Plan. *Water Code §10631 (f) and (g); §10632 (c).*

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".

Peter Brostrom
UWMP Program Manager
