Nick Turner
General Manager
Lamont Public Utility District
8624 Segrue Road
Lamont, California 93241

Dear Mr. Turner:

The Department of Water Resources (DWR) has reviewed the Lamont Public Utility District's (District) 2014 Urban Water Management Plan (UWMP) received December 15, 2014. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the District's 2014 UWMP has found that the plan has generally addressed the requirements of the CWC.

DWR recommends that when updating this plan in 2015, the District make the following revisions:

CWC 10631 (c) (1) Identify the calendar years that represent an average water year, a single dry water, and multiple dry water years for the district.

CWC 10631(f) (1) Provide additional information describing, or include as an attachment, the district's "No Waste" policy.

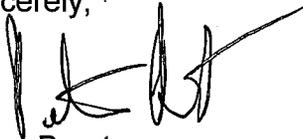

By including this information in future UWMPs, the District will better meet the requirements of the Water Code.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the District's 2014 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.
