February 28, 2014

Mr. Brian Lee
Interim General Manager
Marina Coast Water District
11 Reservation Road
Marina, California 93933-2099

Dear Mr. Lee:

The Department of Water Resources (DWR) has reviewed the Marina Coast Water District's (MCWD) 2010 Urban Water Management Plan (UWMP) received on July 17, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of MCWD's 2010 UWMP has found that the plan has generally addressed the overall requirements of the CWC.

DWR recommends that when updating this Plan in 2015, MCWD include a comparison of the projected water supply with the projected water use over the next 20 years, in five-year increments, for a normal water year, a single dry water year, and multiple dry water years.

By including this data in the 2015 Urban Water Management Plan, the Marina Coast Water District will better meet the requirements of the Water Code Section 10635 (a).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that MCWD has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".
