(916) 653-5791

July 11, 2014

Mr. Tim Shaw
General Manager
Olivehurst Public Utilities District
1970 9th Avenue
Olivehurst, California 95961-4311

Dear Mr. Shaw:

The Department of Water Resources (DWR) has reviewed the Olivehurst Public Utilities District's (District) 2010 Urban Water Management Plan (UWMP) received December 20, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the District's 2010 plan has determined the following required element has not been addressed in accordance with the Water Code:

The plan did not address the requirements to provide information on recycled water and its potential for use as a water source in the District's service area. CWC 10633.

To meet the requirements of the water code and to be eligible for state water grants and loans, the District should consider revising its 2010 UWMP to address the UWMP elements listed above. Revised plans must be adopted by the District's governing board following the public process specified in the UWMP Act.

DWR encourages water suppliers to send drafts of the revised sections to DWR for review before adopting the revised plan.

Mr. Tim Shaw

After adoption, copies of the revised plan should be sent to DWR, the State Library, and local cities and counties. On receiving the revised plan, DWR will review the revised sections for compliance with the UWMP Act.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

Peter Brostrom
UWMP Program Manager
