June 20, 2014

Mr. Greg Thomas  
General Manager  
Rincon del Diablo Municipal Water District  
1920 North Iris Lane  
Escondido, California 92026

Dear Mr. Thomas:

The Department of Water Resources (DWR) has reviewed the Rincon del Diablo Municipal Water District's (District) 2010 Urban Water Management Plan (UWMP) received August 1, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of Rincon del Diablo Municipal Water District's 2010 Plan has found that the Plan has generally addressed the overall requirements of the CWC. DWR recommends that when updating this Plan in 2015, the District:

Provide actions to prepare for, and implement during, a catastrophic interruption of water supplies including, but not limited to, a regional power outage, and earthquake, or other disaster. The agency did not provide in their Water Shortage Contingency Plan, preparations for catastrophic water supply interruption. (CWC Section 10632(c)).

By including this data in future UWMPs, the District will better meet the requirements of the Water Code.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the District's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. Greg Thomas
