April 21, 2014

Mr. Steve Perez
General Manager
Rosamond Community Service District
3129 35th Street West
Rosamond, California 93560

Dear Mr. Perez:

The Department of Water Resources (DWR) has reviewed the Rosamond Community Service District's (District) 2010 Urban Water Management Plan (UWMP) received July 20, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the District's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC. DWR recommends that in the 2015 UWMP update, Demand Management Measure # 6, washing machine rebate, include a cost-benefit analysis describing why it cannot be implemented. *Water Code §10631 (f) and (g)*.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the District's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. Steve Perez
