July 11, 2014

Mr. David D. Lopez
General Manager
Rubidoux Community Service District
3590 Rubidoux Boulevard
Rubidoux, California 92509

Dear Mr. Lopez:

The Department of Water Resources (DWR) has reviewed the Rubidoux Community Service District's (District) 2010 Urban Water Management Plan (UWMP). The California Water Code directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plan to ensure that they have addressed the required elements of the California Water Code.

DWR's review of the District's 2010 plan has determined the following required elements have not been addressed in accordance with the Water Code:

Demand Management Measures (DMMs): The district references submitting California Urban Water Conservation Council (CUWCC) Best Management Practices (BMP) reports in lieu of describing their DMMs. The BMP reporting form, included in Appendix H, was incomplete and CUWCC coverage reports were not included. (CWC Section 10631 (f) (g) (h) and (j)).

To meet the requirements of the water code and to be eligible for state water grants and loans, the District should consider revising its 2010 UWMP to address the UWMP elements listed above. Revised plans must be adopted by the District's governing board following the public process specified in the UWMP Act. DWR encourages water suppliers to send drafts of the revised sections to DWR for review before adopting the revised plan.

Mr. David D. Lopez

After adoption, copies of the revised plan should be sent to DWR, the State Library, and local cities and counties. On receiving the revised plan, DWR will review the revised sections for compliance with the UWMP Act.

Please feel free to contact me if you would like to discuss this further.

Sincerely,

A handwritten signature in black ink, appearing to read 'Peter Brostrom', with a long horizontal flourish extending to the right.
