OTHER REPRESENTATIVE

County of San Diego

Date: March 23, 2011

This letter is to inform you that the San Diego County Water Authority (Water Authority) is updating its Urban Water Management Plan (UWMP). California State law requires urban water suppliers to update their UWMPs every five years and notify the cities and counties within their service area that a plan is being prepared. The Water Authority must adopt an updated UWMP by July 1, 2011, and submit the adopted plan to the California Department of Water Resources by August 1, 2011.

The UWMP is required to contain a detailed evaluation of the supplies necessary to reliably meet demands over at least a 20-year period in both normal and dry years. In accordance with State law, the Water Authority will distribute a copy of its draft 2010 UWMP to the cities and county for public review at least two weeks prior to holding a tentatively scheduled public hearing in **May 2011**.

Please feel free to contact Ms. Kelley Gage in the Water Resources department at (858) 522-6763, or kgage@sdewa.org, if you have any questions or would like additional information.

Sincerely,

Dana Frieauf
Principal Water Resources Specialist

MEMORANDUM

TO: MEMBER AGENCY MANAGERS & MEMBER AGENCY UWMP
WORKING GROUP MEMBERS

FROM: KEN WEINBERG, DIRECTOR OF WATER RESOURCES

SUBJECT: MEMBER AGENCY TECHNICAL REVIEW: ADMINISTRATIVE
DRAFT OF THE WATER AUTHORITY 2010 URBAN WATER
MANAGEMENT PLAN

DATE: 3/30/11

Enclosed is the technical review draft of the Water Authority's 2010 Urban Water Management Plan (Plan) on a CD for your review and comment. On February 25, 2011 we provided the member agencies data consisting of the individual agency demand forecast, water use efficiency targets and local supply plans. This draft, which includes the previously distributed data, is being provided to the member agencies for their technical review prior to release of a draft Plan to the public and Water Authority Board of Directors.

This administrative draft Plan is also being provided in part to address Water Code Section 10631 (k) of the Urban Water Management Planning Act (Act). This section of the Act requires the exchange of supply and demand information between the wholesale agency and its member agencies. The enclosed draft Plan provides preliminary numbers associated with the existing and planned sources of water expected to be available from the Water Authority under multiple dry-year, single dry-year, and average year conditions, in five-year increments for the 20-year term required under the Act. The supply numbers will be finalized with adoption of the Plan by the Water Authority Board.

The Water Authority would like to thank all the member agencies for their assistance and valuable input during preparation of the draft 2010 Plan. The enclosed technical review draft contains the local supply information submitted by the member agencies and, for those member agencies that provided it, the member agency retail-level gallons per capita per day (GPCD) targets for compliance with SBX7-7. To accurately reflect the region's overall plan for future reliability, it is important that the Plan correctly reflect the member agencies' projected yields from local supplies and the projected savings from retail-level GPCD targets. This will lead to consistency between the plans, thereby reinforcing the importance of development of local supplies and achieving the retail-level GPCD targets to meet local and regional water demands.

Please pay special attention to the local supply figures included in the Plan for your agency to ensure that they are consistent with what is being included in your urban water management

plan. (The tables in Appendix F of the Plan list the member agencies' groundwater and recycled water projects, along with yields from local surface water reservoirs.) In addition, if your agency revises its retail-level GPCD target, or has yet to provide this information to the Water Authority, please include this information in your comments to us on the draft Plan. We would like the public review draft 2010 Plan to reflect the most up-to-date member agency GPCD targets. Lastly, we will continue to work with you to resolve questions regarding the member agency baseline demand forecast numbers.

We welcome any comments you may have on the draft Plan by **April 21, 2011**. This will allow us time to incorporate them into the public review draft Plan that will be provided to the Board and the public in late April. Please submit your comments in writing, attention Ms. Kelley Gage, 4677 Overland Avenue, San Diego, CA 92123, or via email, at: kgage@sdewa.org.

Thank you for your cooperation.

SUBJECT: DRAFT OF THE WATER AUTHORITY'S 2010 URBAN WATER
MANAGEMENT PLAN
DATE: 5/6/2011

Enclosed for your review and comment is a CD containing a draft of the Water Authority's 2010 Urban Water Management Plan (2010 Plan). The California Urban Water Management Planning Act (Act), included in the State Water Code, requires urban water suppliers to prepare and adopt its 2010 Urban Water Management Plan by July 1, 2011. The enclosed 2010 Plan provides draft numbers associated with the existing and planned sources of water expected to be available from the Water Authority under multiple dry-year, single dry-year, and average year conditions, in five-year increments for the 20-year term required under the Act. The supply numbers will be finalized with adoption of the 2010 Plan by the Board in June 2011. At the May 23, 2011, Special Water Planning Committee meeting, staff will present the draft demand and supply numbers contained in the 2010 Plan, as well as other important information in the plan.

Water Authority Releases 2010 Draft Urban Water Management Plan *Agency seeks public comment on long-range planning document*

The San Diego County Water Authority is inviting public review and comment on the 2010 Urban Water Management Plan (UWMP), the agency's long-range water resources planning tool. The public can make comments through June 6, 2011.

The UWMP contains a forecast of the San Diego region's water demands and a detailed evaluation of supplies necessary to meet those demands for both normal and dry-year conditions over the next 25 years. The plan identifies existing and projected water supply projects and programs required to ensure long-term water supply reliability for the 95 percent of the county's population who live and work within the Water Authority's service area.

Copies of the draft 2010 UWMP are available for review on the Water Authority's website at www.sdcwa.org or by requesting an electronic copy at uwmpcomment@sdcwa.org.

Comments must be received at uwmpcomment@sdewa.org or mailed to: Urban Water Management Plan, San Diego County Water Authority, 4677 Overland Ave., San Diego, CA 92123, no later than 5 p.m. Monday, June 6, 2011.

A public hearing on the draft 2010 UWMP will be held May 26, 2011, at 1 p.m. in the Water Authority Board Room at 4677 Overland Avenue in Kearny Mesa. All public comments will be reviewed before the Water Authority Board of Directors considers the draft 2010 UWMP for adoption at its June 23, 2011 meeting.

All California urban water suppliers are required to prepare an Urban Water Management Plan under the California Urban Water Management Planning Act and update it every five years. Once adopted by the Board, the Water Authority submits the updated UWMP to the California Department of Water Resources, which uses it to determine the Water Authority's eligibility for grant funds available through programs administered by the agency.
