July 10, 2014

Ron Ruiz  
Public Works Director  
City of San Fernando  
117 MacNeil Street  
San Fernando, California 91340

Dear Mr. Ruiz:

The Department of Water Resources (DWR) has reviewed the City of San Fernando's (City) 2010 Urban Water Management Plan (UWMP) received July 11, 2014. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the City's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC.

DWR recommends that when updating this plan in 2015, the City make the following revisions:

Include the population estimates for each of the baseline years (1995-2009). Because the water distribution system is the same as the city boundary, DWR can assume that the agency used historical population figures from the Department of Finance (DOF), but the population estimates should be included in the UWMP, as well as a notation citing the use of DOF data. CWC 10608.20 (e)(f) and (h)(A).

By including this data in future UWMPs, the City will better meet the requirements of the Water Code.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Ron Ruiz
