May 15, 2014

Mr. Thaddeus McCormack  
City Manager  
City of Santa Fe Springs  
11710 East Telegraph Road  
Santa Fe Springs, California 90670-3679

Dear Mr. McCormack:

The Department of Water Resources (DWR) has reviewed the City of Santa Fe Springs' (City) 2010 Urban Water Management Plan (UWMP) received July 21, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the City's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC. In the City's updated UWMP in 2015, DWR recommends the City include supply and demand information for single and multiple dry years for the next 20 years (Water Code 10635 (a)).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".

Peter Brostrom  
UWMP Program Manager
