October 14, 2014

Mr. Michael Glaze
General Manager
South Feather Water and Power Agency
2310 Oro-Quincy Highway
Oroville, California 95966

Dear Mr. Glaze:

The Department of Water Resources (DWR) has reviewed the South Feather Water and Power Agency's (Agency) 2010 Urban Water Management Plan (UWMP) received May 30, 2012. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the Agency's 2010 UWMP has found that the plan has generally addressed the requirements of the CWC with the following recommendation:

When updating the 2015 UMWP, please include a stage of action in the water shortage contingency plan that addresses a 50% water supply shortage. Also address power outages, earthquakes, or other potential catastrophic water supply interruptions. (Water Code 10632 (a-f))

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the Agency's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".

Peter Brostrom
