June 3, 2014

Mr. Ken Tcheng
General Manager
Sunny Slope Water Company
1040 El Campo Drive
Pasadena, California 91107

Dear Mr. Tcheng:

The Department of Water Resources (DWR) has reviewed the Sunny Slope Water Company's (Company) 2010 Urban Water Management Plan (UWMP) received on July 13, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the Company's 2010 plan has found that the plan has generally addressed the requirements of the CWC with the following recommendations:

When updating the 2015 UWMP, please include a Water Shortage Contingency Plan that has stages of action for water supply reductions up to 50 percent. Also address power outage, earthquake, or other potential catastrophic water supply interruptions (Water Code 10632 (a-f)).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is simply meant to acknowledge that the Company's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. Ted Tcheng
