September 20, 2013

Mr. Gary Luebbers  
City Manager  
City of Sunnyvale  
Post Office Box 3707  
Sunnyvale, California 94088-3707

Dear Mr. Luebbers:

The Department of Water Resources (DWR) has reviewed the City of Sunnyvale's 2010 Urban Water Management Plan (UWMP) received on July 27, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of Sunnyvale's 2010 UWMP has found that the plan has generally addressed the overall requirements of the CWC. DWR recommends that when updating this plan in 2015:

The City should better account for all the end uses and/or disposal of the wastewater treated in its service area. In the 2010 UWMP the volume of wastewater treated to recycled standards and the volume disposed of in the South San Francisco Bay do not add up to the total volume of wastewater treated in the service area. By including this data, the City of Sunnyvale will better meet the requirements of the Water Code, Section 10633 (a) and (b).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is simply meant to acknowledge that the City of Sunnyvale's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".
