Dear Ms. Kuhn:

The Department of Water Resources (DWR) has reviewed the City of Vacaville's (City) 2010 Urban Water Management Plan (UWMP) received on June 3, 2013. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the City's 2010 UWMP has found that the plan has generally addressed the overall requirements of the CWC. DWR recommends that when updating this plan in 2015, the City:

Specifically state the beginning and ending years of the baseline periods. Chapter 4, Table 12 did not specify which of the listed years were used for the baseline calculations.

By including this data in future Plans, the City will better meet the requirements of the CWC Section 10608.20 (e).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is simply meant to acknowledge that the City's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.
