October 3, 2014

Mr. Reddy Pakala
Director of Water and Sanitation Dept.
VCWWD No. 1
6767 Spring Road
Moorpark, California 93020

Dear Mr. Pakala:

The Department of Water Resources (DWR) has reviewed the Ventura County Waterworks District No. 1 (District) Revised 2010 Urban Water Management Plan (UWMP) received September 18, 2014. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of the District's Revised 2010 UWMP has found that the plan has generally addressed the requirements of the CWC.

DWR recommends that when updating this plan in 2015, the District:

- Ensure that gross water calculations are made in accordance with Methodologies for Calculating Baseline and Compliance Urban Per Capita Water Use, DWR 2010. The volume of recycled water should not be subtracted from the volume of potable water. CWC 10608.20 (h) (1) (A)

By including this data in future UWMPs, the District will better meet the requirements of the Water Code.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that the District's 2010 UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

Mr. Reddy Pakala
