February 28, 2014

Mr. Darryl Barrow
General Manager
Westborough Water District
2263 Westborough Boulevard
South San Francisco, California 94083

Dear Mr. Barrow:

The Department of Water Resources (DWR) has reviewed the Westborough Water District's (WWD) 2010 Urban Water Management Plan (UWMP) received on August 1, 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of WWD's 2010 UWMP has found that the plan has generally addressed the overall requirements of the CWC.

DWR recommends that when updating this Plan in 2015, Westborough Water District include a draft water shortage contingency resolution or ordinance, as was done in the District's 2005 UWMP. By including this data in future UWMPs, WWD will better meet the requirements of the Water Code Section 10632 (a) (8).

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter is meant to acknowledge that WWD has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water management planning, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Brostrom".
