GEOGRAPHIC IDENTIFIERS

2005-2009 American Community Survey 5-Year Estimates

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

	Census Tract 43.02, Kern County, California	Census Tract 44.01, Kern County, California	Wasco city, California
Summary Level	140	140	160
Geographic Component	00	00	00
Region	4	4	4
Division	9	9	9
State (FIPS)	06	06	06
County (FIPS)	029	029	
County Subdivision (FIPS)			
Subminor Civil Division (FIPS)			
Place (FIPS)			83542
Census Tract	004302	004401	
Consolidated City (FIPS)			
American Indian Area/Alaska Native Area/Hawaiian Home Land			
American Indian Reservation Trust Lands/Hawaiian Homelands Indicator			
American Indian Tribal Subdivision			
Alaska Native Regional Corporation (FIPS)			
Combined Statistical Area			
Core Based Statistical Area(Metropolitan or Micropolitan)			
Metropolitan Division			
Combined New England City and Town Area			
New England City and Town Area			
New England City and Town Area Division			
Urban Area (an urbanized area or an urban cluster)			
Congressional District (111th)			
State Legislative District (Upper Chamber)			
State Legislative District (Lower Chamber)			
School District (Elementary)			
School District (Secondary)			
School District (Unified)			
Public Use Microdata Area			
Area Name	43.02	44.01	Wasco
Part Flag			
Legal/Statistical Area Description Code	CT	CT	25
FIPS Class Code			C1
Geographic Change User Note Indicator			
Land Area in square miles	1.541	1.189	9.426

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value.

1. An "*" entry in the margin of error column indicates that too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '***' entry in the margin of error column indicates that no sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
8. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
9. An '(X)' means that the estimate is not applicable or not available.
