

## **AGRICULTURAL WATER MANAGEMENT COMPLIANCE**

In the past, LADWP has not met the definition of “Agricultural Water Supplier” provided in Water Code, Section 10608.12. However, this status is currently under review. If it is determined that LADWP does now meet the definition, the Department of Water Resources will be notified and steps will be taken to comply with Agricultural Water Management Plan requirements.

## **SURFACE WATER DIVERSION COMPLIANCE**

The Los Angeles Department of Water and Power is a diverter of surface water and has submitted surface water diversion reports in compliance with the requirements outlined in Part 5.1 (commencing with §5100) of Division 2 of the Water Code. For information related to LADWP's compliance with this requirement, please contact the following staff:
