

**Paradise Irrigation District Systemwide  
Efficiency Improvement Project**

CASGEM Compliance

The CASGEM Compliance requirement does not apply to the Paradise Irrigation District.

Ground water in Butte County is governed by the County's Groundwater Management Plan. The District overlies an area with no ground water basin. Only fractured rock aquifers serve as a potential ground water supply and is not a significant water source

Additionally, the foothill and mountain areas of the County do not overlie groundwater basins as defined in Department of Water Resources (DWR) Bulletin 118-2003, and are therefore not included under the County's Groundwater Management Plan.

I certify that the above is true and correct to the best of my knowledge.
