Paradise Irrigation District  
Attn: Keith O'Brien  
6332 Clark Rd.  
Paradise, CA 95969

Dear Mr. O'Brien:

We would like to take this opportunity to thank you for your confidence in Utility Services Associates, LLC to perform a water leak detection project. We use the latest technologies available for surveying and pinpointing leaks in areas of the system as discussed. We understand that this project has been approved and the money is available.

#### CONFIRMED SCHEDULE

This letter is to serve as confirmation of previously discussed scheduling. Our Leak Consultant, **Greg Hagen** with equipment will meet **you at 6344 Clark Rd. (Corp Yard) at 7:00 AM on Monday, March 10, 2014.** This project has been scheduled for **15 to 19 days.**

#### The charge for this project is:

59 miles @ \$344.85 per mile:	\$20,346.15
Mobilization Charge:	\$638.00
*Fuel Surcharge:	\$150.00
	<b>\$21,134.15</b>

\*Due to the rapid and basically uncontrolled increase in fuel prices in the last several months, effective immediately, we are forced to add a fuel surcharge to all of our projects to cover these additional, unforeseen costs. Because we value your business we will only pass this surcharge on as long as costs continue to spiral upwards out of control. We are sorry about any inconvenience this may have caused.

In order to expedite this project and to get the most effective water line survey, it will be necessary for Paradise Irrigation District to supply a helper at all times who can assist our Leak Consultant with information regarding the water system. A helper will also ensure that no areas are missed during the survey and all possible methods are utilized to locate all lines accurately.

Thank you for allowing us to serve you.

Sincerely,

Bruce Rubin  
Consultant
