Also, paragraph 11 of the Oak Run Creek Decree states the maximum ditch loss between the Welch-Strayer Diversion from Mill Creek (#45) and the Welch-Strayer Rediversion from Oak Run Creek (#9) shall not exceed 0.70 cfs. Hence the difference in total ditch water right of 3.00 vs. 2.30 cfs. The watermaster billing is based upon the Oak Run Decree summarized herein.			
5/	These Tracts have water rights from both the Welch-Strayer and Welch-Nailor Ditches.
