

STATEWIDE SUMMARY OF COMMUNITY WATER SYSTEMS

Number of Community Water Systems

Water System Size	Central Coast	Colorado R	No Coast	No Lahontan	Sacramento R	SF Bay	San Joaquin R	So Coast	So Lahontan	Tulare L.	Statewide Total	Percent of Community Water Systems
Large (> 10,000 Pop)	31	15	11	3	44	54	29	181	18	35	421	14%
Medium (3301 - 10,000 Pop)	25	12	16	3	42	7	35	57	13	22	232	8%
Small (500 - 3,300 Pop)	47	23	40	18	85	27	72	66	49	63	490	17%
Very Small (< 500 Pop)	292	79	193	32	333	96	297	116	105	234	1777	60%
Primarily Wholesale Systems	5	0	2	0	0	6	5	19	2	1	40	1%
TOTAL	400	129	262	56	504	190	438	439	187	355	2,960	

Population Served by Community Water Systems

Water System Size	Central Coast	Colorado R	No Coast	No Lahontan	Sacramento R	SF Bay	San Joaquin R	So Coast	So Lahontan	Tulare L.	Statewide Total	Percent of Population Served

Source: Permits, Inspection, Compliance, Monitoring and Enforcement (PICME) database as of June 2012 from the California Department of Public Health (CDPH).

Note: Population estimates are as reported by each system to CDPH and may include transient persons (i.e., visitors) within the water system boundary. Consequently, this estimate is greater than the resident population that was estimated at 36 million for all community water systems in SWRCB's report on *Communities that Rely on a Contaminated Groundwater Source for Drinking Water*.
