Water Plan Update 2018 Tabletop Finance Worksheet

Instructions:

We would like to give an opportunity to those that were not able to stay or did not have time to complete this worksheet during the Plenary to share their thoughts. Please take a few minutes to read and answer the questions in this worksheet.

To refresh your memory on the subject, we suggest that you take a few minutes to review the presentation that accompanies this worksheet, you can find it [here](#) (Investment and Finance Planning in Update 2018). The two case studies that were part of the presentation are available as well. You can find all the handouts and presentations for the Plenary on our [Meeting Materials](#) page.

Please remember to save the file (File, Save) and email it to us at: cwpc@water.ca.gov. If you have any problems or questions, please email us.

Even if you did not attend the Plenary, feel free to answer the questions and send the form to us.

Tabletop Questions:

Action 10 of The Governor’s Water Action Plan calls for three things:

1. Development of a water financing strategy
2. Removal of barriers to local and regional funding for water projects (including Prop. 218)
3. Analysis of user and polluter fees as a means to stabilize revenues

Question #1

Thinking about the Governor’s Action Plan direction and the Water Plan format:

From the list below, what are the top 2 or 3 items that you suggest DWR focus on?

What is important about your top 2-3 items?

- | | |
|-----------------------------------|---------------------------------|
| 1. Shared Intended Outcomes | 5. State Roles and Partnerships |
| 2. Policy and Actions Assessments | 6. Funding Demands |
| 3. Existing Funding | 7. Effective Funding Mechanisms |
| 4. Funding Gaps | 8. Return on Investments |

Response:

Question #2

What barriers have you observed or experienced that have limited your ability to secure or effectively utilize local and regional funding? What barriers do you suggest Update 2018 address?

Response:

Question #3

Thinking about long-term water sustainability, what stable funding sources do you see as viable options to achieve statewide water sustainability?

Response:
